| JC-32-042 | $11 / 4$ | 2 | 12 |
| JC-32-044 | $11 / 2$ | 3 | 12 |

Made of High Grade Tool Steel. Hardened and precision ground to very close tolerances on 4 sides. Parallels are finished, packed and sold in pairs.

Squares have accurate right angles both inside and outside. Made from a single piece of fully seasoned tool steel. Beams and blades are ground and accurately lapped for straightness and parallelism. Accuracy Class H Blades are beveled on both edges of each side. Beam is grooved at inner corner for clearance of burr and dirt. All squares are fully hardened (Rockwell 55).
