

Black Granite Surface Plates have become indispensable to modern industry because of their superior features. They provide a reference plane for all precision measurements. Modern gaging techniques place an ever-increasing demand for those basic reference standards due to their inherent advantages specified. The Black Granite Surface Plate provides an accurate reference plane meeting the most severe requirements for precision measurements.

Size	Flatness Microns	Mass In Kg.
300 x 300 x 75mm	5	22
450 x 300 x 100mm	6	45
630 x 400 x 100mm	8	81
630 x 630 x 100mm	9	127
1000 x 630 x 150mm	12	303
1000 x 1000 x 150mm	13	480
1600 x 1000 x 250mm	15	1024
2000 x 1000 x 250mm	22	1600

Each Plate is calibrated in a temperature and humidity controlled room, but does not include Nata Certification.

SURFACE PLATE STANDS ALSO AVAILABLE

- *HIGH QUALITY*
- *STABLE*
- *CORROSION RESISTANT*
- *ECONOMICAL*
