

SMALL FLEXIBLE COUPLINGS SIGERIST

Advantages:- One piece construction eliminates play and backlash.
 Suitable for speeds up to 15,000 R.P.M.
 Great flexibility with minimum pressure on bearings.
 High Torque - small dimensions.
 Compensates all kinds of mis-alignment.

For mis-alignment up to 0.4mm
Maximum angle 7°
Up to 1/2" (12.7mm) spindle dia.
